June, 2016

Dear Village of Hartland Water Customer:

The Village of Hartland respectfully requests that homeowners with lawn irrigation systems set them to operate between **2:00 AM – 6:00 AM** for Bristlecone Pines and Windrush Subdivisions (south of HWY K) and **10:00 PM – 2:00 AM** for Four Winds, Mary Hill, Traditions and any new development (north of HWY K) during the upcoming lawn irrigation season.

The Village of Hartland water utility is requesting this change to reduce the impact lawn irrigating has on the water system during the early morning hours. We are also requesting this change to minimize the potential for future watering restrictions.

If you have any questions, please call the Hartland Water Utility at 262-367-4750 and ask for Mike Gerszewski/DPW Operations Supervisor or Dave Felkner/Utility Foreman.

Thank you for your assistance.

Sincerely,

Village of Hartland
