

The Wonderful World of Water Day

February 25, 2017 • 8:30 - 11:30 am
at Retzer Nature Center

See special exhibits and hands-on activities as well as hear a variety of speakers on different water topics, including:

THE LIFE CYCLE OF A SNOWFLAKE

9:00 am

Look at the journey of a snowflake, beginning with a snowstorm and the possible paths of this snowflake, including how it might make it into your well and septic system.

CRAYFISH CAPERS AND PURPLE CRUSADERS

9:45 am

Learn about aquatic invasives species—what is threatening our waters and how can we help.

PLANNING YOUR RAIN GARDEN—THE TIME IS NOW!

10:30 am

Winter is the best time to plan your spring rain garden installation. Learn how to participate in a rain garden grant program for discounted native plants.

All attendees will
be entered to win
a free rain barrel
with diverter kit!
(\$84 value)

Pre-registration not necessary but available online at waukeshacountyparks.com
